

Mr R Williams

14th January 2008

Dear Russ

Many thanks for making our event such a success, you went down a storm! I had many people commenting on the fact that we tried something different with booking a comedian and at how well you controlled/gauged your audience.

Your act was 'lost' with a couple of our Japanese guests but we knew this would be the case; the other 99% of the guests were in fits of laughter. You are a great guy and were a true professional throughout the entire evening.

We were very pleased with the outcome and thank you very much for your co-ordination and smooth, slick handling of our requirement of this function.

Thanks again

Best regards,
